Helping the University Transfer Process

College Transfer Center

Un decided? Choose a major that suits you!

By: Kelli Adams, Transfer Coordinator

Have you always known what you wanted to be when you grow up? If you have, consider yourself to be very lucky! If you’re still wondering what you want to do for the rest of your life, don’t worry! Most of our students here are still exploring their options.

It is not uncommon for students to change their major 3 or more times when they are in college. And more than that, after you finish school, expect to change your career an average of 7 times!

Finding a major is really about knowing yourself. Ask yourself questions...

- What interests you academically?
- What kinds of classes do you enjoy and do well in?
- Are there careers that interest you?
- Do you know what it takes to get into that career?
- What kind of interests do you have outside of school?
- Could these interests compliment a particular major or career?

By using some of the resources at Seattle Central, you can tackle your indecision, learn more about yourself, and get a jump start on preparing for your transition to a four-year college and beyond!

The Career Information Center in BE 1102 E offers career assessments and other resources to help you research careers and the majors that will compliment them. The College Transfer Center, BE 1102 F, can help you find those majors at different four-year schools and help you research the prerequisites necessary to transfer!
