Enrollment: 2005-2006 through 2010-2011

The enrollment information displayed below shows Seattle Central Community College’s enrollment over a six year period (academic years 2005-2006 through 2010-2011). Enrollment is separated into four categories: State Funded FTES*, International Students, Running Start Students, and Seattle Vocational Institute (SVI) State Funded FTES.

State funded full time equivalent students (FTES) have increased steadily over the last five years with the biggest increase in 2008-2009 and 2009-2010 (a 6% increase each year).

International student enrollment has increased every year from 2005-2006 to 2009-2010. In 2010-2011 enrollment slightly declined from the previous year. Over the last six years international student enrollment has almost doubled. Please note that these numbers do not include Seattle Central Institute of English (SCIE) students. SCIE student enrollment went from 178 FTE in 2005-2006 to 550 FTE in 2010-2011.

Over the last two academic years Running Start has experienced a 26% decline in enrollment.

SVI’s student enrollment was above goal for five years straight. Enrollment declined by 11% in 2010-2011.
