Reading schedule for *Introductory Chemistry, 3rd edition* by Nivaldo Tro

This is a week-by-week schedule of the chapters and sections that will be covered in lecture this quarter. We will progress through the chapters in a way that may seem “out of order,” but this is done so that we can build concepts upon each other in a logical progression. As I mentioned in class, this textbook is a bit more advanced than traditional Chemistry 121 material so sections will be omitted from most chapters; feel free to ask me if you are concerned about whether specific textbook material will be covered in on quizzes. **In general, if a certain topic is not covered on homework, I will not ask about it on quizzes.**

This is only an approximate schedule, and we may move more slowly or more quickly through the book. Your weekly homework assignments will come from the end-of-chapter problems in each week’s readings.

<table>
<thead>
<tr>
<th>Week of…</th>
<th>Sections covered</th>
</tr>
</thead>
</table>
| Jan. 4   | Chapter 3: Sect. 1 through 6  
Chapter 2: Sect. 1 through 6 |
| Jan. 10  | Chapter 2: Sect. 7 through 10  
Chapter 3: Sect. 8 through 12  
**8 and 10 only** |
| Jan. 17  | Chapter 4: all sections  
Chapter 9: Sect. 5 through 9 |
| Jan. 24  | Chapter 10: Sect. 1 through 5 and 8  
Chapter 5: Sect. 1 through 8 |
| Jan. 31  | Chapter 6: Sect. 1 through 5  
Chapter 7: Sect. 1 through 4 |
| Feb. 7   | Chapter 8: Sect. 1 through 4 |
| Feb. 14  | Chapter 11: all sections  
Chapter 12: Sect. 1 through 4 and 6 |
| Feb. 21  | Chapter 13: all sections except 8 |
| Feb. 28  | Chapter 7: Sect. 5 through 9 |
| Mar. 7   | Chapter 16: Sect. 1 through 3  
Chapter 15: Sect. 1 through 10 |
| Mar. 14  | Chapter 14: all sections except 6 |
