

## Four-Year College/University Extension Sites and Programs

Are you interested in transferring to a four-year college/university and prefer to stay close to home? Good news! Several Washington state schools have extension sites in the greater Seattle area.

Extension sites are facilities provided by a college or university for people who are unable to attend classes on the main campus. This list is not exhaustive, as programs are continually being added and revised. Please contact the main campus directly for further information.
