Incoming Transcript Evaluation Request Form

For Transferring Previously Earned College Credits To SCC

Instructions:

- 1. Complete an Admissions Application. We are unable to process evaluation requests if a student has not been issued an EMPLID (ctcLink) Number.
- 2. Submit applicable official transcripts and/or exam scores (i.e. Advanced Placement, International Baccalaureate) to the Admissions Office. They must be received in a sealed envelope as issued by the originating institution or sent electronically by the issuing institution. Emailed, faxed, unofficial or opened transcripts will not be evaluated.

If you attended North Seattle College, South Seattle College or Seattle Vocational Institute, you do <u>not</u> need to request official transcripts but please list below if applicable. Courses completed at Seattle Central College do not require an evaluation. If you have submitted official transcripts to any of the aforementioned colleges, you can contact their respective Registration Offices to have your records forwarded to Seattle Central.

3. Fill out your information below. Submit this form to the Registration Office.

Your records will be evaluated for the program that you have selected. Transfer courses do not appear on your Seattle Central College transcript, nor will they be included in the calculation of your Seattle Central College GPA. They will be viewable on a ctcLink Academic Advisement Report (AAR).

Please allow **up to 8 weeks** for processing. If your records are not on file when this form is submitted, there will be a delay in processing. During high volume periods, the turnaround time may be slightly longer. You will receive an email notification when the evaluation has been completed.
