

HUMAN SUBJECTS RESEARCH APPLICATION *EXPEDITED REVIEW*

Anyone conducting research at Seattle Central College that involves participation of students, faculty, or staff as the subjects of research must apply in advance for Human Subjects review. Research is defined as a systematic investigation designed to develop or contribute to generalizable knowledge.

Expedited review is to be used for those cases in which a project involves minimal risk:

1. There are **no sensitive personal questions** where disclosure of the subjects' responses outside the research could reasonably place the subjects at risk of liability damage to financial standing, employability, or reputation.
2. **No identifying information is recorded** to link individuals to the data.
3. The participants in the project **are not from a vulnerable or special population** (e.g., pregnant women, prisoners, minors, cognitively impaired individuals).
4. If applicable, the research project has **received IRB approval** from the researcher's home institution. Please attach a copy.

Completed forms, or questions about the Human Subjects review process should be directed to:

Dr. Bradley Lane
Executive Vice President of Instruction, Finance & Planning
Phone: (206) 934-5481 Email: Bradley.Lane@seattlecolleges.edu
